

The Spirit and the Soul. Just what are they? Are they two separate entities, or two different names for the same? And if two entities, what are their functions, and how do they relate to each other? It's seems no Minister, Priest, Philosopher, Professor or Rabbi has ever provided a definitive, explanatory and concise answer to this.

That at all ends here.

This will be done using analogies or 'similitude's, as the Scriptures calls them. Along with modern technology. and a splash of Quantum Mechanics.

In the previous Scrolls it is discussed the Quantum realm and the Spirit realm, Heaven; are one in the same. Quantum Mechanics allows us to see a sliver of this, along with the Quantum realm/Spirit realm being made up entirely of energy.

Lighting, electrons, photons, gravity waves, magnetic waves, and yes, brain waves. While all are invisible, only the effects of them can be observed, they can be detected and understood. This was told to us in the scriptures many years ago. We just have to take this understanding a bit farther than what is known and understood today.

Romans 1:20. For the invisible things of Him from the creation of the world are clearly seen being understood by the things that are made, even his eternal power and Majesty; so that they are without excuse.

Think of the human brain as a large powerful, yet singular microchip. Electrons flowing through it in the form of electricity, or energy. In this massively powerful chip are billions upon billions bits of information.

Electricity, rather it be DC current or Alternating current, it must make a complete circuit. A positive and a negative poll. The electrons must always return to the source, from the positive poll to the negative poll for it to empower whatever device it is to power up.

Ecclesiastes 12:7 – the spirit returns to Elohim who gave it.

This connection is continual, never stopping. If this circuit is broken or disconnected, the device shuts down. It dies. The spirit realm/quantum realm being pure energy, acts in this manner.

While the scriptures do not elude to the spirit being constantly, continually connected to life in all forms, Romans 1:20 indicates that this is probable, even likely.

Ecclesiastes 3:19–21

“For that which befalleth the sons of men befalleth beasts... as the one dieth, so dieth the other; yea, they have **all one breath**...

Who knoweth the spirit of man that goeth upward, and the spirit of the beast that goeth downward to the earth?”

In simple terms, we could describe this as the **life force** that flows from the Creator into every living person and creature. In the biblical worldview, the **breath or spirit of life is not limited to humans**. Animals are also described as possessing the **breath of life**, though their role and destiny are different from mankind.

Another passage that makes this clear is:

Genesis 7:22 “All in whose nostrils was the **breath of life**, of all that was in the dry land, died.”

This continual reciprocating flow of energy, the breath of life, is the spirit. Strikingly familiar the dialog from the popular movie, ‘Stars wars’. **The Force gives a Jedi his power. It’s an energy field created by all living things. It surrounds us and penetrates us; it binds the galaxy together.**”

And science teaches us that energy (In this case, the spirit and the soul being pure energy) cannot be destroyed. Only it's state of being can be change. This validates the concept of eternal life.

Hebrews 4:12. For the word of Elohim is quick and powerful, and sharper than any twoedged sword, piercing even to the **dividing asunder of soul and spirit**, and of the joints and marrow, and is a discerner of the thoughts and intents of the heart.

This verse in Hebrews clearly states that that the soul and the spirit are two separate entities. So now what the spirit is has been explained, so, just what is the soul?

Think of the billions of bits of information on this 'chip' as being one's moral character, personality. There likes and dislikes. What makes a person, 'you', 'you'. This is the soul. And just like information on a chip, this information can be deleted. Ever since the time the MESSIAH spoke these words:

Matthew 7:23 "Depart from me, I **never knew you.**"

They have not been fully understood. The scriptures clearly indicate that an individual is known to YAHWEH even before the time of conception. And in the previous 'scrolls' is discussed that the Father and the Son are one being in different realms.

Jeremiah 1:5

"Before I formed thee in the belly I knew thee; and before thou camest forth out of the womb I sanctified thee, and I ordained thee a prophet unto the nations."

Here YAHWEH directly says:

Before formation

I knew thee

I sanctified thee

King David speaks about YAHWEH knowing and forming him **in the womb**.

**Psalm 139:13–16 “For thou hast possessed my reins: thou hast covered me in my mother's womb. I will praise thee; for I am fearfully and wonderfully made...**

**Thine eyes did see my substance, yet being unperfect; and in thy book all my members were written...”**

This passage emphasizes YAHWEH forming him.

YAHWEH seeing him before development was complete. Isaiah says he was called from the womb.

Isaiah 49:1 “YAHWEH hath called me from the womb; from the bowels of my mother hath he made mention of my name.”

So, what was the MESSIAH indicating when HE said, “I never knew you”? For this, Quantum Mechanics/Physics, is called upon. There is a term associated with Quantum Physics known as ‘Retro-Casuality’. This is an attribute of the Quantum realm where a future event can change or even delete a past event. In American history George Washington lead the patriots to victory in American Revolution. But what if he had not?

But some future event changed the outcome of the Revolution from Washington and the patriots originally lost to the British to them achieving victory? At a mystical level, history books would instantly be rewritten. What we had learned, the information stored in our brains, would be altered, and America would become an entirely different nation than what was originally in place. All without mankind knowing anything about this change, being a part of the 'system'.

When HE said, "I never knew you", YAHWEH, in the physical realm, as the MESSIAH reached back into time, and like a 'chip', deleted their souls. Up until that time, they had souls. But after, not only did they lose their souls, they in fact never had one from the beginning! They were nothing more than a collection of walking, talking flesh and bone without a soul before they were even born! As far as them being sent to hell after passing? There was no soul to send to hell! They were just deleted. Gone! YAHWEH gives all individuals throughout time ample opportunity to repent and adhere to HIS doctrine until He determines that waiting any longer is useless. And this judgment goes on to today as found written in...

Romans 1:28. And even as they did not like to retain Elohim in their knowledge, Elohim, gave them over to a reprobate mind, to do those things which are not convenient.

And this is the reason why hell is only reserved for Satan and his angels, and those who take 'the Mark'.

This brings us back to:

Ecclesiastes 3:19–21

“For that which befalleth the sons of men befalleth beasts... as the one dieth, so dieth the other; yea, they have **all one breath**...

Who knoweth the spirit of man that goeth upward, and the spirit of the beast that goeth downward to the earth?”

Indeed, animals have a spirit but do they have a soul? Maybe their brains do not have the capacity, or enough 'RAM' to contain a soul. And does this include domesticated animals? Your loyal dog or cat that loves you without exception? The word 'Beast' may imply those that act and react by instinct as opposed to a pet who's heritage that has been in constant human contact, expanding their experiences and thus, their brain capacity over thousands of years seems to indicate the possibility. But these are questions for the reader to ponder.
